Dear Parent/Guardian:

As you were notified in a previous letter, the Blind Brook School District is beginning a pilot of the NutriKids Point of Sale program to simplify the management of food purchases in the District. One of the features of this new program is a secure parent web page that will allow you to electronically add money to your child's account. The child will then be able to use this money by using an ID card or entering a PIN number at the cafeteria lunch line. The parent web page will also allow you to view how much money is currently available in your child's account as well as view your child's purchases.

To set up your account on the NutriKids parent portal, go to <http://www.mynutrikids.com>, click the Sign Up Now button in the middle of the screen and then follow the directions. You will need to first set up your account and then add your children to the account once it is set up.

Please contact Colin Byrne if you have any questions or problems. Thank you.
