

Tracy C. Taylor, Principal

Tamara Oppenheimer, Assistant Principal

Principal's Coffee

Wednesday, January 12, 2012

7:00 p.m. - 8:00 p.m.

Ridge Street School Computer Lab

Coffee, Tea and Snacks will be served!

(But, we will have to eat them outside the computer lab...)

Agenda

Let's take a look inside the Ridge Street Computer Lab

Explore the sites that your child gets to use:

- *Mad Minute*
- *Everyday Math Games*
- *Rosetta Stone*
- *Reading A-Z*
- *And more!*

Tracy C. Taylor, Principal

Tamara Oppenheimer, Assistant Principal

Minutes

- Parents had a chance to check out Rosetta Stone. Currently our 5th graders use it to complement our FLES program. This is a trial for this year only. Parents saw what our students experience in the first few lessons.
- The parents that attended were already familiar with Everyday Math Games so we did not view those games. However...parents had a chance to check out IXL. IXL is a math program that allows teachers and parents to monitor the progress of their students and motivate them through interactive games and practice questions. The questions get harder as students move through the skills. You can visit IXL here: <http://www.ixl.com/>
